PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 3+ years developing cross-platform mobile and web applications. Built mobile applications serving 2M+ users across 7 African markets with \$50M+ in processed transactions. Improved application performance by 80% through architectural modernization and reduced deployment time by 30% implementing CI/CD workflows. Expert in React Native, Node.js, and fintech payment integrations with published applications on Google Play Store, Apple App Store, and Huawei AppGallery.

TECHNICAL SKILLS

- **Mobile Development:** React Native, Expo, Native Modules, CodePush, Deep Linking, React Navigation, React Native (0.72 - 0.81.1), Zustand, AsyncStorage, iOS Development, Android Development, App Store Publishing
- **Web Development:** React.js, TypeScript, Next.js, JavaScript ES6+, Server-Side Rendering, Redux, Redux Toolkit, Axios, HTML5, CSS3, Tailwind CSS
- **Backend Technologies:** Node.js, Express.js, REST APIs, WebSockets
- **Database Systems:** PostgreSQL, MongoDB, Firebase, SQLite
- **DevOps & Tools:** Git, GitHub, Azure CI/CD, Docker, Postman, Jira, Firebase Hosting, Netlify, Performance Monitoring
- **Payment & Security:** Payment Gateway Integration, Mobile Money Services, PCI Compliance, DexGuard, Biometric Authentication
- **Testing & Quality:** Jest Framework, Unit Testing, Integration Testing, Code Reviews, Firebase Crashlytics

WORK EXPERIENCE

- **Senior Software Engineer** [*Comviva Technologies*] *June 2024 - Present*
 - Led React Native development for enterprise fintech mobile applications serving users across 7 African regions and processing \$50M+ in transactions.
 - Integrated 15+ third-party services including payment gateways, analytics, and communication platforms, maintaining 99.9% system uptime.
 - Orchestrated React Native upgrades from v0.72 to v0.81.1, resolving compatibility challenges and optimizing performance while ensuring application stability.
 - Built a multilingual and region-aware system that enabled the app to serve users across multiple African countries with language and cultural customizations.
 - Established Azure CI/CD pipelines for mobile and backend deployments, reducing deployment time by 30% and improving release reliability.
 - Strengthened application security through DexGuard integration, biometric authentication, and payment security enhancements.
- **Product Development Engineer** [*Comviva Technologies*] *Sep 2022 - May 2024*
 - Developed 3 cross-platform mobile applications using React Native and Redux, integrating 20+ telecom and fintech APIs serving 500K+ customers.
 - Engineered payment gateway integrations with advanced error handling, achieving a 99.8% transaction success rate and enhancing payment reliability.
 - Spearheaded legacy system modernization by migrating applications to the modern React Native architecture, resulting in an 80% improvement in performance.

- Established a comprehensive testing framework using Jest, achieving 90% code coverage and conducting 100+ peer code reviews to ensure code quality.
- Collaborated with cross-functional teams to deliver Investment, Insurance, and Subscription Management features, contributing to a 35% increase in customer retention.
- Implemented CI/CD workflows for continuous integration and automated testing, streamlining development and improving release efficiency.

KEY PROJECTS

MTN MoMo - Fintech Platform

- Developed enterprise-level fintech application using React Native serving millions of users across multiple African countries with comprehensive mobile money services. Implemented secure payment processing with multi-layer encryption, biometric authentication. Built financial services including QR code payments, international remittances, and real-time transaction tracking.

MyMTN - Self-Care Application

- Built comprehensive self-care mobile application using React Native, enabling users to manage telecom services and subscriptions efficiently. Implemented real-time data usage monitoring with push notifications and integrated Disney Plus subscription services with custom UI components and promotional campaigns.

Food Delivery App

- Developed a cross-platform food delivery application using React Native, enabling users to browse restaurants, place orders, and track deliveries seamlessly. Implemented user authentication, cart management, and order tracking with responsive UI components. Integrated REST APIs and optimized state management using Redux to deliver a smooth experience across Android and iOS platforms.

Job Portal

- Developed a full-stack job portal using React.js, Node.js, Express.js, and MongoDB, enabling employers to post job listings and users to search and apply for opportunities. Built scalable RESTful APIs for managing job listings, applications, and user profiles with secure MongoDB integration. Designed intuitive user interfaces for job search, application submission, and resume uploads, ensuring a seamless user experience.

Personal Portfolio Website

- Developed a responsive personal portfolio website using Next.js, TypeScript, and Tailwind CSS with modern UI/UX design, animated sections, dark/light theme support, and optimized performance for desktop and mobile devices.

EDUCATION

NxtWave Disruptive Technologies Private Limited

Apprenticeship - Full Stack Developer

Hyderabad, Telangana

2021 - 2022

Rajiv Gandhi University of Knowledge Technologies

Bachelor Of Technology in Civil Engineering

Nuzvid, Andhra Pradesh

2017 - 2021
